

# Claw Styptic Putty for Pets <sup>TM</sup> **CLAWTTY**

## **INNOVATIVE STYPTIC PUTTY FOR DOGS, CATS & BIRDS**

### **Description & Characteristics**

-  Clawtty™ is an innovative styptic putty designed to stop bleeding in pets.
-  A synthetic material, made from biodegradable polymers.
-  The ready-to-use sticks are soft and easy and quick to apply. Using dry and clean fingers, Clawtty™ is easily molded to the desired shape and consistency that provides immediate styptic effect when attached to bleeding claw or beak.
-  It works quickly and easily by simply kneading and attaching.
-  We ensure you a painless and convenient experience both for you and your pet.

# STOP BLEEDING FOR DOGS, CATS & BIRDS

## QUICK & EASY & CLEAN

### Quick & Easy application at your fingertips

- Simply knead Clawtty™ 6-9 times until it becomes a soft putty.
- After attaching the putty shaped Clawtty™ to the bleeding area, it is unnecessary to hold or press it down to the injured area.
- Clawtty™ is water soluble so that you can wipe it off easily and cleanly using a wet tissue.

### Ingredients ... Poloxamer, Gelatin, CAp, Poly Glycol, Benzocaine.

### Inactive Ingredients ... Biodegradable starch paper.

### Uses ... • Nail clipping • Clipping wings • Beak trimming/injury • Treating minor cuts
